VOL 33

MARION, CRITTENDEN COUNTY, KENTUCKY, May 4 1911

NUMBER 45

## ESKEW BROS, Machinists, REPRESENT INDUSTRIAL PROGRESS.

### Are You Advancing?

**PROGRESS** means to make improvement--to advance. For a farmer it means the use of any machine that will increase crops with the least work. When you progress you are striving for easier methods of doing things, better ways of living, and the attainment of all improvements which will help you to live comfortably so that you can enjoy your work, and at the same time relish the free, fresh air and sunshine. Are you doing it? Do you progress?

"A little bit  
the best  
Mower  
that ever  
went into  
the field"

### THE NEW WALTER A. WOOD MOWER THE ADMIRAL

The Admiral is the latest Walter A. Wood Mower. In it is concentrated their fifty-seven year experience. It possesses all the peculiar features of construction that have made Walter A. Wood Mowers world-famous. Its new features make it even more valuable to the farmer. The following statement of a prominent Illinois dealer indicates the popularity of the Admiral and suggests the wisdom of investigation.

"The Admiral is just a little bit the best Mower that ever went into the field. Farmers come in every day telling what a wonderful machine it is. We would not buy anything else."

We want to show this up-to-date Mower to every farmer in this locality. No one who wants to keep posted on the newest in farm machinery will neglect to investigate the Admiral. It will surprise and delight you.

### Do You Believe In Progress?

**MEN** who progress are men who use McCormick or Walter A. Wood's up-to-date binders, hay-rakes, mowers, hay-tedders, reapers, harrows, cultivators, planters and etc. Are you up to date? Are you using modern farm machines? Look at your equipment. Are't some of your machines pretty well worn? Shouldn't you replace them? There is no line of farm machines superior to our line. These machines are used in every civilized country in the world.

**McCormick and Walter A. Wood machines are recommended by men who use them, they could have no better recommendation than this. It is to your interest to use this line as they are best and give the least trouble in repairs, as we carry a full line at our shop. Get our prices and see our machines before you buy. We take pleasure in showing them.**

## Eskew Bros, Carlisle Street, Marion, Ky.

### SPLENDID PROGRESS

#### MADE IN ROAD BUILDING.

#### Full List Of All Subscriptions

All advances in civilization are brought about by either moral or physical reforms. The building of good roads is a physical reform. It is said that "Cleanliness is next to Godliness" and a companion couplet reads "Good roads begets good morals". These couplets are not found in the Bible but they certainly breathe the spirit of sacred inspiration.

The building and maintenance of good roads in any community, County or State is conclusive evidence of a well balanced public mind, a reasonable desire for comfort, and a keen appreciation of their value in dollars and cents. The earliest systematic effort at road making is accredited to the Carthaginians and was begun for the purposes of war and the conquest of distant countries. 55 years before Christ, Julius Caesar built a road from London to New Castle-on-Tyne and this road is one of the best in all England and is used to-day. The Romans were the greatest road makers the world ever saw and they conquered the world. English roads are the best on the continent and one of their most celebrated road makers was Macadam, a Scotchman, whose success at road building founded on through drainage.

The most celebrated road in all history is the Appian way leading from Rome Italy to the coast. It was begun by Appius Claudius Ceresus 312 years before Christ was born, and was built of hexagonal, or six sided blocks, principally of lava, and carefully laid with cement. This is a model highway to this day.

The Apostle Paul journeyed to Rome over this road some 350 years later and as soon as he struck this remarkable piece of engineering he "Thanked God and took courage". We understand of course, from the text that the sight of the brethren caused the exclamation, and yet Paul had traveled a tempestuous route, buffeted by the wind and waves, assaulted by robbers, in peril on land and sea, and is it too much to presume that when this old soldier of the cross planted his feet on the solid rock of Appius and felt a foundation under his feet like unto the foundation of the religion he preached, that part of his thanks to God was for good roads.

Millions of men since Paul's time have thanked God for good roads and thousands in Crittenden County will in the future do likewise, and whether or not this future is far distant or close at hand depends on the people of the county.

Good roads are not an iridescent dream merely to be talked about and cast aside when the novelty

of the thing wears away. Good roads are a reality. We are just as certain to have good roads all over this county as the judgment day is certain to come; but who wants to wait until the judgment for the realization of good roads? What good will it do our generation to know there will be 500 miles or more of good roads in Crittenden County 100 years from now. Good roads today interest this generation.

There is not a doubt in the world but what we can have good roads if we will "Aye theres the rub" if we will. If our people will to have good roads we will have them. Good roads are an investment not an expense. If a farmer puts a \$500.00 tobacco barn on his farm, is it lost? No, it is an investment and he promptly adds that much to the value of his farm. \$100,000.00 spent on good roads in Crittenden County will add \$200,000.00 to the value of the farms of this county.

The Crittenden Record-Press is deeply interested in this subject and will do everything in its power to help this work along, and particularly urges each and every one to put his shoulder to the wheel and let us have one piece of good road as a starter in this county. Let it be as good as can be constructed and the we will have a pattern for the inspection of all the people. Precept and preaching are good but example is the best of all teaching.

The Record-Press is happy to announce that we have \$2,070.00 in cash subscribed to date and 367 days work for team and one man. This latter is worth \$1,101. which added to the cash makes \$3,171.00.

We must have \$1,200.00 more. We have to have this to guarantee the fiscal court in its share of the work which is the grading and building. This must and will be raised by May 15th on which day we will have a good roads meeting and elect some non-salaried officers. Everyone is invited to attend this meeting. All subscriptions to date follow:

Continued on page 8.

#### Real-Estate Mine And Stocks.

If you want to sell your Farm, Mineral or Timber properties come and list it with me at once. I have a call for some mineral property at present I cant fill and yours might be the property I need. We are here to do business and are doing business on a run.

I still have a few shares in the Doyle Mining Co., but they are going fast, if you want stock in this valuable mine, you had better get busy and see me, shares are advancing at a rapid rate.

I will be on my farm two mile southwest of Salem, Ky., on the Greens Ferry and Salem road. Thursday and Friday of each week come and see me. This applies to Livingston and Crittenden Counties only. David C. Loveless, Special agent for the National Co-operative Realty Co., Washington, D. C.

SAY!!

DO YOU KNOW WHO I AM?

WELL, IF YOU DON'T, ASK SOMEBODY.

I'VE COME HERE TO STAY A FEW YEARS AND TELL YOU WHERE TO BUY HARDWARE AND THINGS.

I'LL DO SOMETHING DIFFERENT EACH WEEK. LOTS OF MY YOUNG FRIENDS ARE GOING TO CUT ME OUT OF THE PAPER EACH WEEK AND MAKE A SCRAP BOOK. YOU'LL FIND THIS LOTS OF FUN.
